California | +1 (347) 699-9484 | [dipit.vasdev@nyu.edu](mailto:dipit.vasdev@nyu.edu) | [linkedin.com/in/dipit-vasdev](https://www.linkedin.com/in/dipit-vasdev) | [github.com/dipitvasdev](https://github.com/dipitvasdev)

## EXPERIENCE

- Software Engineer | Google, San Francisco** **December 2024 – Present**
- Developed and maintained large scale backend services and batch data processing pipelines using Java, FlumeJava and SQL, focusing on payment tokenization and data management
  - Designed and implemented new features for both server side systems and Android mobile applications, enhancing functionality and improving system monitoring and alerting
- Software Engineer Volunteer (Backend) | Hack for LA, California (Remote)** **August 2024 – December 2024**
- Developed **RESTful APIs** using **Node.js** and **Express.js**, enabling efficient project management and secure data updates.
  - Designed and implemented **database schema** updates and **stored procedures** in **SQL Server**, for backend operations
  - Integrated **JWT-based authentication** and role-based access control to enhance **API security** and manage user permissions.
- Graduate Course Assistant | New York University (NYU), New York, USA** **September 2023 – May 2024**
- Facilitated graduate-level Deep Learning course logistics for 100+ students, enhancing their academic understanding and practical application of course material.
- Software Engineer Summer Intern | Alten Capital, New York, USA** **May 2023 – August 2023**
- Developed 20+ robust RESTful API backend endpoints and middleware functions using Express API server and Mongoose models, enabling CRUD operations, and shipped products end-to-end for this early-stage startup.
  - Deployed 4 optimized middleware functions, focusing on authentication, error handling, and validation checks, leading to an 17% reduction in redundant code.
  - Implemented advanced React hooks and custom hooks to automate UI updates for real-time chat functionality, enhancing user experience by ensuring seamless message retrieval and display.
  - Automated the build, test, and deployment process using GitLab CI/CD.
- Software Engineer Intern | S&P Global, Gurgaon, Haryana, India** **May – July 2021**
- Designed 4+ AWS CloudWatch and Grafana dashboards for application monitoring and metrics aggregation
  - Extracted more than 10,000 ALB Access logs/day from S3 bucket using regular expressions and AWS Query Language
  - Developed AWS Lambda functions in Python to automate data extraction and processing tasks reducing cost by 25.

## EDUCATION

- New York University (NYU) – New York, USA** **September 2022 – May 2024**
- Master of Science | Computer Engineering – **GPA: 3.9**
- Relevant Coursework:** Machine Learning, Data Structures and Algorithms, Deep Learning, Data Science, Data Visualization, Big Data
- \$18,000 Merit-Based Scholarship Recipient**
- Guru Gobind Singh Indraprastha University – New Delhi, India** **August 2018 – July 2022**
- Bachelor of Technology | Computer Science and Engineering – **CGPA: 9.25/10**

## SKILLS

|                                           |                                                                                                |
|-------------------------------------------|------------------------------------------------------------------------------------------------|
| <b>Development:</b>                       | Back-end Development, Authentication, API development (RESTful APIs), Vercel SDK, AWS Cloud    |
| <b>Programming Languages:</b>             | Python, C/C++, Kotlin, Java, SQL, JavaScript, TypeScript                                       |
| <b>Frameworks &amp; Libraries:</b>        | TensorFlow, Flask, Scikit-learn, Git, Node.js, Express, MongoDB, Mongoose, React, React Native |
| <b>Data Science &amp; ML:</b>             | Machine Learning, Neural Networks, NLP, Computer Vision, Statistical Inference, DBMS, Big Data |
| <b>Data Analysis &amp; Visualization:</b> | Pandas, NumPy, Matplotlib, Power BI, Tableau, Microsoft Excel                                  |
| <b>Systems &amp; Platforms:</b>           | Windows, macOS (Unix)                                                                          |

## AWARDS AND ACCOLADES

- Recognized as Top Data Science Voice – LinkedIn** **January 2024**
- Runner up, eYantra Robotics Competition – Indian Institute of Technology, Bombay** **April 2021**
